	Urgent	Not Urgent
Important	**Do - (Your MVP)** ● Add coding challenges with automatic grading ● Create a sanity system or other win conditions ● Create start screen and win/lose screen	**Schedule - (For V2.0+)** ● Add coffee or other way to increase sanity ● Add jumpscare or other game elements ● Vary the challenges for replayability
Not Important	**Delegate - (Use a library)** ● Add audio from online audio library/database ● Create background animations or animate existing elements (like text) ● Allow users to write their own Java code by running it in another environment	**Delete - (Cut it)** ● Allow users to create their own challenges for studying ● Create some level of persistence so users don't lose all progress upon refresh ● Add security cameras like in Five Nights at Freddy's
